+91-9096198872 | pratikshakasliwal02@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [CodingNinja](#) | [Unstop](#)

EDUCATION

CGPA – 9.65, BTech – CSE, Walchand Institute of Technology, Solapur May 2024

PROFESSIONAL SUMMARY

Python Backend Engineer with **1.8+ years** of experience building and maintaining production-grade APIs and data automation systems. Strong in Python, SQL, and backend development with hands-on experience in production issue resolution and system stability. Actively expanding into data engineering and applied AI through scalable data pipelines and document intelligence systems.

TECHNICAL SKILLS

Python | FastAPI | Flask | REST APIs | SQL | ETL | Data Pipelines | Docker | AWS (basics) | Git | Linux | Unit Testing

PROFESSIONAL EXPERIENCE

Software Engineer | HSBC Technology India Jan 2025 – Present

- Built Python-based **REST APIs using Flask** for a data automation platform, improving system efficiency by **~25%**.
- Owned backend features end-to-end including **API design, validation, unit testing, and deployment** using **Git**-based workflows.
- Resolved high-priority production issues, reducing recurring incidents by **~40%**.
- Collaborated with business users to translate requirements into reliable backend solutions.

Trainee Software Engineer | HSBC Technology India Jul 2024 – Dec 2024

- Developed and optimized **SQL** stored procedures, views and backend workflows using MS SQL Server.
- Implemented unit tests for APIs, achieving **~90%** code coverage.

PROJECTS

Document Intelligence & Retrieval System (RAG-based) [Python](#) | [FastAPI](#) | [LLMs](#)

- Built **end-to-end data ingestion pipelines** for document parsing, chunking, embedding generation, and vector storage.
- Developed **FastAPI-based REST endpoints** for document upload, query handling, and retrieval workflows.
- Deployed the system on **AWS** with logging and monitoring for real-world usage.

RescueConnectors [Python](#)

- Developed backend services for a disaster-response coordination platform with a focus on data-driven resource matching logic.
- Implemented resource matching based on availability and proximity, improving coordination efficiency during simulated disaster scenarios.

INTERNSHIPS

Smarrbl Limited – Internship Jan 2024 – Jun 2024

- Worked on automating quarterly and yearly report generation using Python-based backend tooling.
- Gained hands-on experience with **Linux, SQL, Docker**, and backend automation workflows.

Persistent Summer Internship – Martian Program Jun 2023 – Aug 2023

- Strengthened fundamentals in **Python programming, RDBMS, Linux, and data structures** through hands-on tasks.

ACHIEVEMENTS & CERTIFICATIONS

- Solved **100+** coding problems on LeetCode; peak contest rating of **1364** | Winner at **MSME Women Idea Hackathon 3.0**.
- [AWS Academy Cloud Foundations](#) | HackerRank [Python \(Basic\)](#) ; [SQL \(Basic\)](#) | Infosys Springboard - [OOPS](#)
- **Joint Secretary** – Coding Club, Walchand Institute of Technology
